

Deveron Arts has invited artists Dalziel + Scullion to make an artistic response to the current debate surrounding the planning proposals for over 200 new wind turbine sites in rural Scotland. **Breath Taking** is a photographic project featuring imagery of Clashindarroch Forest and other local sites, that will take place on billboards throughout the country from the 23<sup>rd</sup> May in concurrence with the World renewable Energy Conference in Aberdeen in May. In the lead up to the project a number of talks, walks and other projects have been organised that highlight the issues around energy consumption, landscape change and other environmental concerns.

#### **Renewable Energy/the Power of Nature**

Iain Todd, Consultant to Aberdeen Renewable Energy Group  
Wednesday 2 March, 7.30 pm, Brander Building

#### **Huntly Clean up**

Saturday, 12 March, start 10.30 am
